## **LEGISLATIVE Update January/February 2006**

NAAACCC Update: # 49, ...**see insurance information at the bottom of this page.**

This information is brought to you by the NAAACCC. It has been provided by SEMA. When dealing with the Provincial Government in your areas you might like to use this information as a guideline.

### **Arizona Introduces Bill to **Reduce** Fees for Old Cars**

Legislation (H.B. 2017) has been introduced in the Arizona State legislature that would provide for a **\$16 one-time registration fee for vehicles 25-years old and older**. The bill also provides for a \$50 one-time license plate fee and a one-time \$34 vehicle license tax for these vehicles. **The measure would further allow the director of the state's Department of Environmental Quality to exempt 25-year old and older vehicles from mandated emissions inspections**. Under a law enacted last year, qualified collectible vehicles (at least 15-years old) could be exempted from emissions inspection if approved by the U.S. Environmental Protection Agency as part of Arizona's state plan for air quality.

- Under current Arizona law, these vehicles are charged an annual registration fee of \$8; an initial license plate fee of \$25 with an annual renewal of \$10; and an annual vehicle license tax fee depending on the value of the vehicle.

### **INSURANCE**

**The NAAACCC has a complete liability insurance program for Collector Car Clubs in Canada. (Modified or Stock) It is available in all Provinces including Quebec and Ontario. It is available now.**

**The policy is specifically tailored to the Collector Car Hobby. It offers 5 million \$\$\$\$ in coverage and has Officers and Directors coverage included. It also offers liquor liability, travel to the US, all club functions including show and shines, swap meets etc. etc. etc. all for one very low price.**

**Non --registered clubs welcome!**
